From our home...

50
years
ANNIVERSARY | 1973-2023

Our past

It all began in 1973 when a former flooring installer created a small business called Karndean. Initially trading as a flooring distributor, he soon set his focus deciding the future was with luxury vinyl flooring. With the belief that flooring shouldn't just be practical, it needed to be beautiful as well, he began to travel the world, seeking inspiration for what are now the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of the family house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. Although much has changed since 1973, we are proud to say that many of our early employees, including some who worked out of the original family home, are still with the company today.

Our present

When we design product, we design with our customers, our colleagues and our communities in mind. We call it designing for life and this ethos sits at the heart of everything we do.

Every one of our floors is unique to us having been lovingly created by our in-house team selecting natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs.

Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

Our future

While we can't predict the future, we have a clear, ongoing commitment to continuing to develop beautiful, durable, designflooring that replicates the beauty of the natural world. Monitoring advances in technology to harness new materials and processes, creating innovative flooring products that will benefit our customers around the globe.

...to your home for 50 years

When we say Karndean floors are designed for life, we don't just mean they're guaranteed to last a lifetime. We mean a floor you'll feel a lasting connection with, because you make a Karndean floor your own. You choose the warmth, the welcome, the mood, the style. That's what makes it a floor you feel proud of for years to come. And we mean a floor for the life ahead of you. A strong foundation for the memories you'll make.

Might you go down on one knee here?
Be carried across the threshold on it?
Watch a baby's first steps across it, or house train the dog on it?
Paint monsters, build dens, host parties, smash vases?
Laugh, cry, wrestle, dance?

What makes a Karndean floor special from day one - the pride, the joy, the ease - will all stand the test of time.

You can count on Karndean to be with you every step of the way.

Our interior trends

At Karndean Designflooring we set out to understand what that means in design trends. While we identified four clear and different directions in interior styling, they share a common heart: the home as a sanctuary.

[CLICK HERE TO FIND OUT MORE ABOUT OUR INTERIOR TRENDS](#)

50 years of experience

At Karndean, we see flooring differently.

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs. By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

For the family and Karndean's early employees, many of who are still working with us today, these years bring back many fond memories. Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

1973...

Designed for you

Every one of our floors is unique to us having been lovingly created by our in-house team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs. Working with these products they apply different techniques of staining, brushing and oiling to name a few to create the perfect look and feel bringing you a simply beautiful floor.

Did you know?

Back in 1973, Smokey the Great Dane worked alongside the family and is still present on our logo today.

Low maintenance

Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.

Pet friendly

From muddy paw prints to household accidents and anything in-between, our low maintenance floors are designed with pets in mind.

Kid friendly

Kardean floors offer kids a safe and comfortable space to play, and parents an easy-to-clean surface.

Design capabilities

The design flexibility of Kardean flooring allows you to create your own unique and personalised look in any space.

Durable

Kardean Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

Designed for *comfort*

Quiet underfoot

Karndean Designflooring offers formats that reduce noise transfer – perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Laying possibilities

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. From diagonal to herringbone, define your space with an intriguing laying pattern. Depending on the format you decide on.

Phthalate free

We pride ourselves on environmental awareness in the manufacture and supply of all our products, and can proudly say that all Karndean products are phthalate free.

Lifetime warranty

Not only is a Karndean floor unique to your home, but it's guaranteed to last for years to come.

Sample service

When choosing a floor, take into account all of the surrounding materials and finishes. What colour will the walls or cabinets be? Will you have stained or solid colour skirting boards? All of these items play a part in refining your flooring choices.

Create a moodboard

At Karndean, we know how important it is to help you visualise what your floor will look like with your walls, furniture and accessories, so use our sample service to help.

Order a selection of sample swatches

Order up to six free sample swatches, delivered free straight to your door, to help narrow down your choices. These samples are particularly helpful especially if you're looking to create a moodboard of ideas to get started.

Worth noting: Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store.

Design tip

Have you chosen other elements of your new room design already? Bring samples of those materials with you when you visit your retailer. This will help you find the perfect floor to match your style.

Shop local

Your Karndean Designflooring journey continues at your local Karndean retailer.

Our extensive network of independent retail partners are on hand to help you choose a simply beautiful floor that you'll love for a lifetime.

Knowledgeable and fully trained, our retail partners offer an environment where you can explore our flooring and design your dream home.

You can be confident you are in safe hands. All our retail partners offer a full measure and quote service, have professional floor fitters who have been trained and have many years' experience in installing Karndean and can provide advice on cleaning and caring for your new floor.

Use our online search feature to find your nearest Karndean Designflooring recommended retailer. Leave your details for a retailer to contact you for a free measure and quote.

Transferable warranty

If you purchased your Karndean Designflooring through a Karndean Retail Partner your warranty will have the added benefit of it being transferable. This means that if you sell your house within your guarantee period, you can pass the warranty on to the new owners.

To qualify for a transferable warranty, you must:

- Adhere to the terms and conditions outlined in the Purchase Warranty
- Purchase from one of our retail partners and they will provide us with your email address to enable us to send you your transferable warranty

For more information or to obtain your Purchase Warranty, please speak with your local flooring retailer or contact our Customer Service Team.

The lifetime residential warranty is defined as 35 years and protects against product wear out and manufacturing defects. What's more, the warranties are now transferable to any future owners (subject to the terms and conditions of the Transferable Purchase Warranty).

[CLICK HERE TO VIEW OUR WARRANTY INFORMATION](#)

Caring for your floor

Regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

Over time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using Karndean Remove and Karndean Refresh, to further enhance its look and durability.

[CLICK HERE TO FIND OUR CLEANING AND MAINTENANCE INFORMATION](#)

Environmental

Karndean Designflooring and the environment

At Karndean Designflooring we find inspiration for our products in the beauty of the natural world and feel passionate about bringing this into every product we create. In order to keep our environment protected we do everything we can to continuously improve our manufacturing processes to ensure sustainability whilst delivering best value. We have always aimed to make stylish and durable floors with the lowest possible impact on the environment, and have never had to compromise quality or performance in order to comply with legislation or meet environmental requirements.

Karndean Designflooring is a member of the Green Building Councils of Australia and New Zealand and complies with their requirements under GreenStar. All Karndean products and accessories are manufactured in facilities certified to the ISO 14001 Environmental Management and ISO 9001 Quality Management International Standards. Our approach is based on the use of recycled materials in our floor coverings and ensuring that the finished product is suitable for recycling if required.

What's more...

- All of our packaging is made using recycled material, which we continually review to ensure that it is environmentally friendly and fit for purpose.
- We use individual logistical solutions to efficiently and effectively transport our products.
- Our storage facilities use high density racking to maximise capacity and minimise impact.
- Our offices are introducing innovative energy saving techniques.
- We are members of the Green Building Council Australia (GBCA) and Green Building Council New Zealand (NZGBC).
- Our products qualify for eco-points towards GreenStar building projects.
- All of our adhesives are water based, solvent-free, have low VOC emissions and are GreenTag certified

GreenStar GreenTag™ certified

The majority of Karndean luxury vinyl ranges are fully certified to Global GreenTag, the third party multi-criteria, consensus based and externally verified Type 1 eco-labelling program. This is one of the largest product sustainability certification systems in Australasia and the only certification mark approved by the Australian Competition and Consumer Commission (ACCC).

GreenTag comprises two certification systems and the majority of Karndean Designflooring luxury vinyl is certified under both.

[CLICK HERE TO VIEW OUR ENVIRONMENTAL STATEMENT](#)

LCARate™

Life Cycle Analysis is for all products and all rating tools that engage LCA with separate output called an Environmental Product Declaration (EPD), which is a summary LCA report used for certain credits in some rating tools for GreenStar.

The future

Our continued product innovation focuses on reducing our environmental impact and complying with environmental legislation and recognized certifications worldwide. Our aim is to remain the leading supplier of LVT flooring and to have a market-leading environmental record of achievement through the development of sustainable products and processes.

GreenRate™

GreenRate is a straight Type 1 eco label developed to meet the requirements of specific green building rating tools. It includes indoor environmental air quality: volatile organic compounds compliant (IEQ VOC) and reduced exposure to pollutants. GreenRate is offered in three levels of quality from Level 'C' up to Level 'A' relevant to GreenStar in Australia and New Zealand.

Karndean Designflooring LVT ranges and adhesives are fully certified under GreenStar GreenRate Level 'A', plus under international FloorScore Indoor Air Quality Certification for low emitting VOC's. Also certified to LCARate "silver streamline".

Learn more and download Karndean Designflooring's GreenTag certificates on our website.

Biophilia

Reconnecting with nature in the built environment

Biophilia and the part it plays in sustainability to enhance health, performance and wellbeing.

Humans need nature in order to thrive. Yet, to do this sustainably requires resource consumption to be minimised, finding abalance within our ecological systems to ensure the longevity of resources for future use.

An integrated approach that understands and implements the human need for nature within a built space and recognises the need for a balanced resource consumption and environmental preservation, can achieve both health and wellness goals.

Benefits of biophilia in spaces.

- Office:** Research has demonstrated that productivity can be increased by 8%, rates of well-being up by 13% and well as significant increases in creativity.
- Hospitality:** Surveys have suggested that guests are willing to pay 23% more for rooms with views of biophilic elements.
- Education:** The inclusion of nature within education facilities has said to increase rates of learning by up to 20-25% as well as helping to improve test results, concentration levels and attendance. Some research has also suggested that the inclusion of biophilic elements can further reduce the effects of ADHD.
- Healthcare:** Post-operative recovery times have said to be decreased through natural design elements within a hospital and other healthcare facilities, by 8.5% and further reduced pain medication usage by 22%.
- Retail:** The presence of vegetation & landscaping can increase rental rates on retail spaces with customers indicating they were willing to pay 8-12 % more for goods and services.
- Homes:** Can become more calming & restorative, with 7-8% less crime attributed to areas with access to nature and can command an increase of 4-5% in property price.

Create more than a floor,
create a Designfloor

Imagine your space

On the next pages, draw the space that you will be updating by following the example below.

Start with the shape of your space and entry points.

How do you walk through the room?

Are there any adjoining rooms?

Sketch fixtures in your space.

Take your space from sketch to reality.

Take a look at our Design Guide for inspiration in your home.

CLICK HERE TO VIEW OUR DESIGN GUIDE

*Now it's
your turn...*

Design tip

When planning the design of your floor, think of your most common footpath. Have your local retailer install the floor in that direction to guide guests through the space.

Create a moodboard

Remodelling a whole room and not sure where to start? Create a moodboard with the colour scheme you have in mind for the room. Include items like paint samples, pictures from magazines, wallpaper samples - anything that gives you inspiration for your new space!

Choose your design...

For those who make their flooring choice by shade, here is a quick guide to all our products ranging by tone.

Complete your Designfloor,
choose the floor that suits your needs

Now that you've gathered your ideas and have a colour choice in mind, view our product ranges to make your final selections.

We offer three types of product

We know that choosing a floor that suits you and your home can be challenging. That's why we offer our beautiful, design-led floors in either loose lay, rigid core or gluedown. So you can enjoy exactly the design you want, in the format you need. Please speak to your installer or retailer to discuss your options.

Loose lay

Choose loose lay when...

- You want to reduce noise transfer, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing
-  Laying possibilities

See pages 28 - 85

Rigid core

Choose rigid core when...

- You want superior acoustics, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

See pages 87 - 174

Gluedown

Choose gluedown when...

- You want to create your floor, with different laying patterns, design strips and decorative borders.
- You want to be able to mix stone and wood designs and create a completely bespoke floor.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

-  Individually replaceable
-  Design capabilities
-  No expansion gap required
-  Individual, glued down planks and tiles
-  Laying possibilities

See pages 175 - 222

Loose lay's unique benefits

Karndean LooseLay Longboard and LooseLay Originals ranges offer quick installation and individually replaceable planks and tiles, our loose lay format is perfect for floors that need minimal disruption and maximal design flexibility. Reducing sound transfer to rooms below, making it the perfect option for upstairs rooms or apartments.

Featuring our innovative K-Wave® friction grip backing, holding the product in place using weight and friction and combined with our tried and tested K-Guard+® finish providing a hygienic, durable surface protection that is quick and easy to clean with a pH-neutral cleaner.

Individually replaceable: Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Reduces noise transfer: Our loose lay ranges are perfect for projects where you want to reduce noise levels in the room below.

Quick and easy to install: Our loose lay ranges can be fitted over most existing hard floors.

K-Wave® friction grip backing: Our friction grip backing creates a strong bond to the subfloor.

Loose lay construction

Choosing your laying pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions (formats), as select floors cannot be laid in all of these patterns. Please speak to your retailer or installer to discuss your options.

■ Coastal Blackbutt SCB-KP157

Rigid core's unique benefits

Rigid Core is a hybrid flooring product featuring our proprietary K-Core® technology, a 5G® click-locking mechanism and a specially formulated acoustic backing, and as such, is an ideal alternative to laminate and engineered hardwood click floors. Offering quick and easy installation and hiding subfloor imperfections, it also has the durable and waterproof qualities of luxury vinyl.

Together these layers form a product that is strong and stable, and able to be installed quickly and easily over most existing hard floors, as well as over imperfect subfloors as well as offering impressive acoustic benefits in reducing noise transfer to rooms below.

Installs over existing hard floors: You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.

Reduces noise transfer: The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Quick and easy to install: Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Click-locking mechanism: Get all of the benefits of rigid core with the added security of a superior vertical click-locking mechanism.

Hides subfloor imperfections: Minor subfloor imperfections won't show through our rigid core backing, meaning most installations won't require the use of levelling compounds or underlayments.

InteGrout™: Korlok tiles with InteGrout™ is the premier rigid core click-locking floor to hide subfloor imperfections and features a number of elements that help both the speed and ease of install - perfect for projects that need completing quickly. Unlike typical textured grout, smooth and nonporous Karndean InteGrout™ will neither harbor dirt and bacteria nor crack with seasonal temperature fluctuations.

Keep a look out for this icon throughout this brochure to see which designs include InteGrout™.

Choosing your laying pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions (formats), as select floors cannot be laid in all of these patterns. Please speak to your retailer or installer to discuss your options.

Rigid core accessories

To complete your rigid core floor, we have five colour coordinated accessories for each design. Our accessories are custom made with unique features such as tapered base plates to suit inbuilt underlay and come in convenient 2.3m lengths for ease of transport and handling. All our accessories are suitable for residential and light commercial use.

Multi Trim

This trim comes with three inserts to allow for joining to a range of alternative materials of different thicknesses. As its name suggests, the Multi Trim fulfils a number of functions.

- 1. Expansion Joint cover.** For installations over 15m in length or width an expansion joint must be made (usually placed across a door opening).
- 2. Transition.** For joining to carpet where the trim provides cover for both the expansion gap of the floating floor and protection from the pins in carpet smooth-edge, as well as normal height transitions.
- 3. Reducer/Ramp.** The top cover can be angled to provide a reducer strip down to substrate level, or for adjoining materials of different heights.

Expansion Joint Cover/Transition

Reducer/Ramp

Edge Cap

Edge Caps are one of the most common profiles. They can be used for a neat finish against sliding doors, full height floor to ceiling windows, carpets, tiled areas and other floor finishes of similar height. This profile is glued to the floor and the floating floor slots into the trim, it has 19mm top coverage.

Split Edge Cap

The Split Edge Cap is an easier to install alternative to the Edge Cap, especially on that all too challenging last row of planks. The base profile is installed prior to the installation of the floor and then the colour coordinated top cover is tapped into place with a rubber mallet to hide the expansion gap.

A great option for DIY installers, the Split Edge Cap is a great solution for finishing to window frames, sliding doors or as a sleek alternative to traditional Scotia.

Scotia

Scotia is designed to cover the gap between the wall and the flooring after the floor has been laid. Our scotia measures 19mm by 19mm and is made from high-quality moisture-resistant WPC. It has just the right amount of flexibility to follow any slight inconsistencies in the wall.

Stair Nosing

Stair Nosing is a trim used for finishing of steps and staircases neatly. This trim is fixed to the edge of the step using permanent construction adhesive and mechanically where required.

This is used as a transition trim to join step treads and risers (upright, vertical part of the step neatly). The trim accommodates expansion for both tread and riser.

Korlok

Our Korlok range features proprietary K-Core® technology, a 5G® locking mechanism and a specially formulated acoustic backing. Together these layers form a product that is strong and stable, and able to be installed quickly and easily over most existing hard floors, as well as over imperfect subfloors.

Korlok offers impressive acoustic benefits in reducing noise transfer to rooms below.

Dual format

Every home, room, and approach to styling a space is completely unique to you and we know that choosing a floor that suits you and your home can be challenging...

That's why we create adaptable installation options for our beautiful, design-led floors.

Our dual format floors come in glued-down and rigid core, so you can choose the best option for you and your space.

Click here to read more about our Dual Format collection.

River Spotted Gum VGW131T | SCB-VGW131T

Herringbone laying pattern is only achievable with glued-down ranges.

Urban Spotted Gum KP141-7 | SCB-KP141

Choose your format

We know that choosing a floor that suits you and your home can be challenging...

That's why we offer many of our beautiful designs in dual format. As these are available in both gluedown or rigid core, you can enjoy the design you want, in the format you need.

Gluedown

With our gluedown ranges you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

Individually replaceable: Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Design capabilities: With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

Glued down: Planks and tiles are permanently secured with Mega Bond glue to the subfloor.

No need for an expansion gap: can lay straight up to the skirting board without removing.

Rigid core

Our rigid core hybrid ranges feature a click-locking system that allows them to be installed over most existing hard floors, without the need for adhesive.

Installs over existing hard floors: Rigid core can be floated over most existing hard floor coverings.

Quick and easy to install: Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Click-locking mechanism: Get all of the benefits of rigid core with the added security of a superior vertical click-locking mechanism.

Reduces noise transfer: The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms playrooms or attic/loft conversions.

Van Gogh

Our popular Van Gogh range captures the look and feel of real timbers in a carefully curated collection of 20 timber-look planks available in gluedown or our 5G® click-locking rigid core format for ease and versatility of installation.

From classic European species such as oak, elm, maple, and birch to quintessential Australian timbers including blackbutt and spotted gum, the Van Gogh range celebrates the intrinsic character and rich diversity of colour, tone, and texture of the world's most beautiful timbers.

Gluedown

Our gluedown ranges are individual planks and tiles that are stuck down using permanent adhesive. They can be customised with design strips, borders, laying patterns, and custom cuts, as well as offering our widest choice of colours and formats.

Features such as textured emboss or our premium hand-scraped finish, wide bevels, or flat edges make each range unique to Karndean and serve to highlight the faithful replication of the original wood and stone that inspired each of our products.

Click here to find out more about our **Gluedown** collection.

Gluedown's unique benefits

Our gluedown ranges are: Art Select, Van Gogh, Knight Tile and Opus.

Because gluedown planks and tiles are installed individually, these products offer the highest level of personalisation. This allows you to create a layout and design that makes your home more stylish and functional, while remaining affordable and faster to install than other types of hard surface flooring.

Individually replaceable: Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Glued down: Planks and tiles are permanently secured with Mega Bond glue to the subfloor.

Design capabilities: With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

No need for an expansion gap: can lay straight up to the skirting board without removing.

Diagonal with border

Herringbone

Loved for its distinctive pattern and uniformity, herringbone features planks or tiles laid in a V-shaped weave creating an inspiring zig-zag flooring effect that will complement any interior space.

Brick lay

Diagonal

Herringbone

Striped (2-colour)

Brick lay

One of the most traditional and common tile laying patterns, tiles are laid end to end in a straight line and rows are staggered creating a subtle yet effective flooring pattern that can work great in bathrooms.

Design strips

To complete the look of a gluedown design, add a decorative strip. These can be placed between tiles to create a natural grouting effect or to enhance the design of your floor. We have a range of design strips in this section that are available to you.

Choose from a range of tones and textures, available in 10, 5 and 3mm wide, unless otherwise specified.

Note: Design strips are only compatible with gluedown products.

Van Gogh compatible design strips are available as special order only and longer lead times may apply.

Design strip		compatible with	widths
Utah REN34			
Gold J86		Available for use with Opus floors.	3mm
